

GitHub

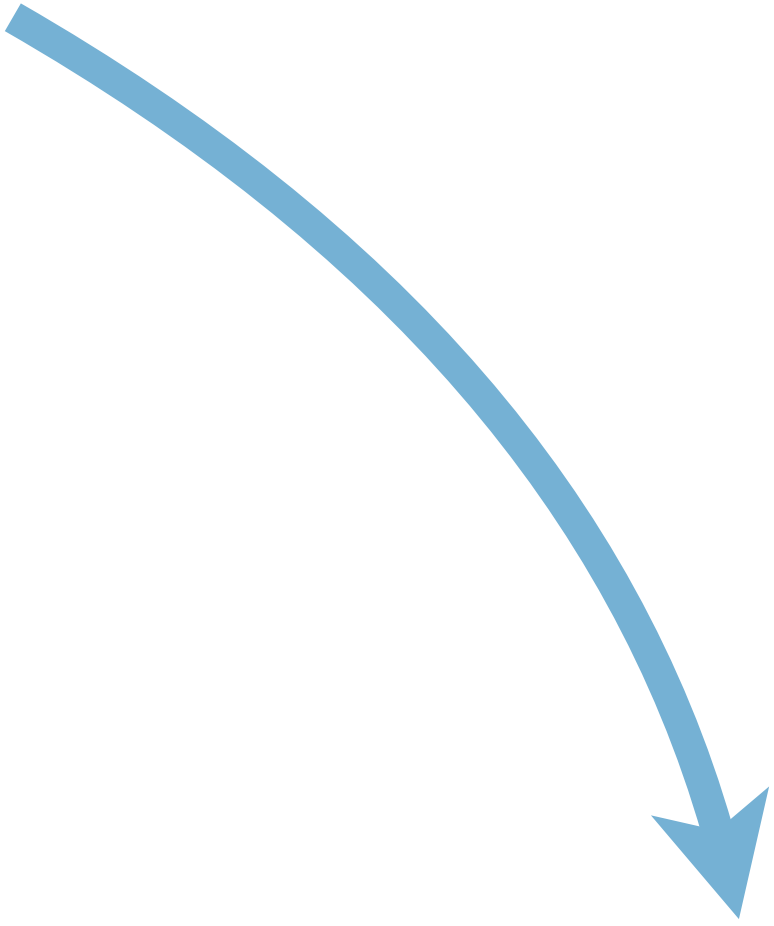

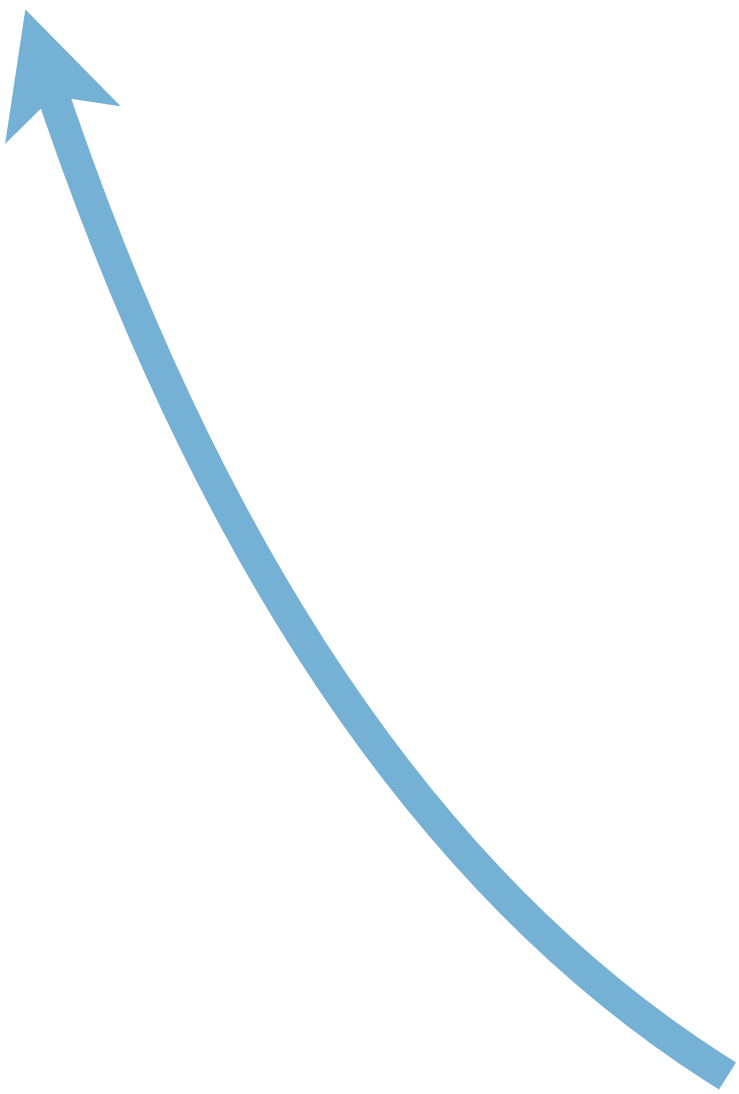

A stylized blue computer monitor icon. The monitor has a thick blue frame and a blue base. The screen is white and displays the word "Collaborators" in a dark gray, sans-serif font. A small white dot is visible at the top center of the blue frame, representing a camera or sensor.

# GitHub

# Branching & Merging

- \* Create a parallel version of a repository
- \* Work on some new feature without messing with "master" branch
- \* Merge branch when new feature is done
- \* Change which branch you're editing with `git checkout <branch name>`
